

Palm House B&B

TAKING ACTION
FOR BUSINESS
SUSTAINABILITY

MALDON

Grow Me The Money member for 4 months

Local produce is sourced to use throughout the business, sometimes from their own garden.

Palm House is very proud to reach the Silver Club with Grow Me The Money considering the short time we have been participating in the program. We got involved in the program primarily to minimise our business' impact on the environment. A secondary benefit of our involvement is the estimated savings we will recoup by using less energy and water resources.

Our Silver Club Action Plan spans across many different aspects of the business:

- Switching to green energy
- Installing energy saver light globes
- Recycling garden waste
- Educating guests on current water restrictions
- Sourcing local produce to use throughout the business

palmhouse.com.au

Implementing our Action Plan is just the beginning of our involvement with Grow Me The Money. As we've worked through the measurement activities we are constantly identifying further efforts we can apply to be environmentally responsible whilst reducing our operational costs.
